Report

Sir,

Here we have conducted the event to IV B. Tech students on 04th February 2019 to 08th February 2019 In the afternoon time i.e 3:00 PM to 04:30 PM. The event we have conducted is Career guidance total 211 students are attended.

Venue: Seminar hall, ECE Block

No. of students participates: 211

Profile: Mr. BV. Satya Nagesh

Mr. S. Somasekhar, the speaker of the five days event. He explained the, what is Career Planning and he spokes to students about Choosing a career is a big decision and the irony is that we are not prepared to take such a big decision at the time we require taking it. We are still in our school when we have to choose between the science, commerce and humanities stream that mainly influences the career path we take up later. While earlier, it was parents, teachers and elder siblings who largely influenced our career choice, children these days have become more aware – thanks to the internet. We can explore the various available career options on the internet as well as their prospects before we make the final decision. However, advice from the elders is still recommended as they are more experienced.

We must all be very careful while choosing our career. We must not enter a field just because our friend or sibling has taken it up or our parents want us to go for it. We should listen to our heart, understand what really interests us, see if we are good at it and then look forward to other aspects attached to it. The other aspects may include the cost involved in the course we wish to pursue, the demand of such professionals in the market, the packages being offered in the field we want to enter and the growth prospects in the field.
