INPLEMENTATION OF E-GOVERNANCE

S.No.	Area of E-Governance	Software
1	Administration	CMS
2	Finance and Accounts	CMS
3	Student Admission and Support	CMS
4	Examination	CMS

1. ADMINISTRATION:

The administration tool (CMS) is designed and developed by Hiroto IND Technologies, a company based in Hyderabad, India offering business solutions for education. CMS is an enterprise scale campus management solution developed on the latest open source technologies for both web and mobile platform targeting specific roles in a campus. CMS is a next step in for campus management driven by mobility and collaboration. The CMS software is implemented at immediate availability of data in required formats to ease the work of staff and management and increase transparency and accountability in administration.

PACKAGE HIGHLIGHTS

1. Collaborative Learning backed by Governance
2. Content creation in a few clicks

BENEFITS OF CAMU SOFTWARE

CMS software helps in managing the entire system from academics to administration in a hassle-free manner. It provides a easy way to enrolment of students, monitoring the attendance of both students and faculty, maintain timetables, session and final marks entry, sending messages to students and parents regarding marks, fee dues, etc and any academic information.

2. FINANCE AND ACCOUNTS

Tally and CMS software are used for finance and accounts. Different modules are used from the software's to make the work easier. All the payments, receipts and ledgers are done in CMS software's.

3. STUDENT ADMISSION AND SUPPORT

CMUS is digital tool helping the educational institution to manage the student enrolment process very easy. It lets the admission team capture student inquiries, check their eligibility, follow-up, collect documents and complete the application process digitally.

The admission module consists of the following important sub-modules.

- ✓ Admission
- ✓ Roll Number Allocation
- ✓ View Admissions
- ✓ Details of the Admissions

CAMU LIBRARY

CAMU is well equipped with all the features required for scalable library management system used to maintain the record of the library. The software stores all the data regarding issues and returns of books borrowed by students and faculty with respective submission dates, searching titles, journals and other library reports. Manual record burden on the librarian is reduced by the use of CMS software tool.
